Off Sinari Daranijo Street,  
Victoria Island, Lagos State.

# COMPANY OVERVIEW

TREXM Chemicals develops innovative solutions to provide lasting value to clients and society. Our diverse range of products cater to industries such as construction, manufacturing, and oil & gas. Clients benefit from TREXM Chemicals's regional presence, local resources, dedicated sales force, and strong supply chain.

We provide technical support in addition to our wide range of specialty products, leveraging on long-standing business contacts and strategic market insight. Our simple business model, dedicated sales force, and strong supply chain make us a leading contributor to local content development in Nigeria.

TREXM Chemicals operates in major energy centers in Nigeria (Lagos, Port Harcourt, Warri) and the USA.

## Our Capabilities

- Drilling and Completion of Fluids
- Refinery Chemicals
- Production Chemicals
- Gas Treatment Chemicals
- Water Treatment Chemicals
- Lubricants
- Specialty Chemicals
- Commodity Chemicals

# OUR SERVICES

---

## 1. Drilling and Completion Fluids Chemicals

We own a liquid blending plant with a capacity of 100,000 bbl of liquid storage for liquid mud, base oil, and brine. Our products optimize drilling operations by improving efficiency and minimizing costs.

### We Deliver:

- Water-Based Mud (Spud Mud, KCl Polymers, etc)
- Invert Emulsion Systems (Synthetic Oil-Based Mud)
- Reservoir Fluids (Drill-in Fluids)
- Completion Fluids (Heavy Brines and Packer Fluids)
- Drilling Specialty Chemicals

**We also have a dedicated Barite Mill with an average daily capacity of 30 tons/day.**

## 2. Production Chemicals

Our team of experts conduct field optimization trials to proffer technical and economically lasting solutions. We take a proactive approach to mitigating operational disruptions. Our blending plant is capable of producing up to 10,000 liters of water-based and oil-based chemical products.

- Demulsifiers
- Corrosion Inhibitors
- Pour Point Depressants
- Wax Inhibitors
- Biocides
- Hydrogen Scavengers
- Water Clarifiers
- Oxygen Scavengers
- Solvents

## 3. Specialty Chemicals

Our solutions can help meet strict specifications and limits on impurities in hydrocarbon gas and condensates supplied to processing plants and help prevent corrosion, hydrate formation, and freezing in cryogenic equipment.

Some of our application include:

### Gas Treatment Solutions

- Adsorbent Solutions

### Refinery and Petrochemicals

- Catalyst Solutions
- Adsorbent Solutions
- Amines for Sour Gas Removal

# Succeed With Us

---

TREXM Chemicals is committed to helping partners succeed in today's competitive markets by providing efficient service and expertise to support business growth.

## We Are:

- Dedicated to delivering customized solutions that meet the unique business goals of our clients and partners.
- A skilled technical team providing excellent services in several product lines.
- Loyal partners equipped with advanced technology and industry experience.
- A proven management team, and process-driven structure for efficient decision-making. [process-driven, efficient, decision-making].

## Our Solution-Driven Approach is Comprised Of The Following:

- Customized Technical Solutions
- Custom Blending and Mixing
- Laboratory Services
- Asset Monitoring and Maintenance

## ISO CERTIFICATIONS

- **Quality Management System  
ISO 9001:2015**
- **Environmental Management System  
ISO 14001:2015**
